Fees in connection with the type approval procedure in accordance with Directive 70/156/EEC;
- Cost-based fee for vehicle type approvals based on the share of e1 system approvals submitted with the application

Question or problem:

Under the Fee Schedule for Measures in Road Transport (GebOSt), the Federal Motor Vehicle Department (KBA) charges fees based on cost groups. The fee for the granting of a General Type Approval (ABE) or an EC Type Approval for the entire vehicle type equals Euro 534 to Euro 734, provided that all relevant system approvals under separate directives have been submitted.

So far, the KBA has always used the highest fee within the fee range, even though the actual costs may be lower in certain cases, for example when all relevant system approvals under separate directives have also been granted by the KBA.

Solution:

In compliance with the 15th Amending Ordinance to the Fee Schedule for Measures in Road Transport (GebOSt), the KBA will henceforth set the fees within the fee range established by fee number 111.1 based on the share of e1 system approvals submitted with the application, as follows:

- | | |
|----------|---|
| 534 Euro | provided that more than half of the system approvals required for the requested vehicle type approvals under Directive 70/156/EEC were granted by the KBA |
| 734 Euro | if only up to half of the system approvals required for the requested vehicle type approvals under Directive 70/156/EEC were granted by the KBA |

This arrangement will become effective immediately.
